CAUTION

Any reproduction of an alphabetically or numerically ranked table found in this document not accompanied by both footnotes and the appropriate section of explanatory notes may constitute misuse of information.

Information in this public document was prepared to assist public school administrators in identifying needs and planning. The per copy cost for printing and handling was \$6.00. Copies were provided free of charge to selected school district administrators during the initial distribution period.

Other copies may be obtained from a limited supply in the Office of Research (see page vii for address) by sending a check for the amount listed above payable to the South Carolina Department of Education. Reference copies of this publication are also available to the public from county and other public libraries through inter-library loans with the State Library.

FOREWORD

For the past eighteen years, the educational characteristics in this document have been presented in essentially the same format to allow comparisons over time. Each issue has been modified to include additional characteristics as new data become available. Therefore, comparisons will vary in the number of years for which data are presented. Such comparisons will yield changes in descriptive trends for districts as well as for the State.

The 1988 edition contains 111 ranked characteristics that are arranged alphabetically, by district name, and numerically, by characteristic value. In some instances, a high value may be favorable; in others, it may be unfavorable. Users should give attention to the sources that are supplied in the Footnote Listing at the end of the tables as well as the Explanatory Notes at the beginning of this document. A new Appendix E which provides definitions for most of the characteristics or terms used in this publication is included this year. This information is supplied to further clarify the characteristics of interest.

We urge you to use the enclosed information with caution. High, low or median values for the characteristics presented in the tables are not intended to measure the quality of education in any school district. Many other factors must be taken into consideration when determining quality education. This updated information may be useful to you in preparing local profiles, public information brochures, and other such sources of information.

For the past fourteen years, the Office of Research, Management Information Section, has provided District Profiles based on the school district characteristics found in this document. These profiles will be available again upon request.

We continue to desire your comments as to how you use the information within this publication and its importance to you. Your recommendations for change as well as any questions concerning the content of the publication are invited and encouraged.

Charlie G. Williams
State Superintendent of Education

EXPLANATORY NOTES

The 1988 edition of the RANKINGS presents 111 tables of ranked characteristics related to public education in South Carolina. The characteristics are arranged alphabetically by school district name and numerically by characteristic value. In some instances, a high value may be favorable; in others, it may be unfavorable.

Statistics for Felton Laboratory School, South Carolina Youth Services District, Palmetto Unified District, and South Carolina School for the Deaf and Blind were excluded from all tables except Tables 64-69 which rank average years of experience of the various staff categories. The reporting method used in the source documents for these tables did not allow such exclusions.

State totals presented for tables in this publication may not equal the sum of district/county figures, or may not be exactly the same as listed in the source document, due to rounding procedures.

Population

Population estimates used in the tables were provided by the Division of Research and Statistical Services of the State Budget and Control Board. These estimates reflect population as of July 1, 1986.

Economic

Tables 20 and 21 concerning personal income are repeats from the previous edition. The updated information was not available in time to be included in this edition. Tables relating to employment in various categories (Tables 28-34) display estimates of nonagricultural wage and salary employment by the county in which the work was performed, rather than by the county in which the workers resided. This reporting was consistent with the reporting in previous editions. The State figures may not equal the sum of county figures in the employment tables due to rounding procedures and the inability to allocate some workers in the South Carolina totals to specific counties.

In order to maintain the confidential nature of data reported by employers, information was not shown in the source document for industries with fewer than three reporting units or when any firm, or two firms combined, accounted for 80 percent or more of employment in the industry.

As in the past eleven editions, the labor force statistics used to calculate unemployment percentages (Table 26) were reported on a residence basis rather than by place of work and were based on an annual benchmark derived from the Current Population Survey Benchmark.

Table 27 gives the 1986 average weekly wage of workers covered in employment. The data reported in the source document were based on employment and payroll information reported by employers to the Unemployment Compensation Division of the South Carolina Employment Security Commission on their regular quarterly tax report.

Pupil

The official pupil count for 1973-74 through 1977-78 was the 35-day cumulative enrollment at the end of the 180-day reporting period. Thereafter, the official pupil count has been the Average Daily Membership (ADM) at the end of the 135-day accounting period. Unless otherwise noted, kindergarten has been included in membership. Tables 41-46 present enrollment figures rather than ADM figures to allow certain comparisons.

Professional Staff

Unless otherwise stated, statistics for personnel in special education schools were included in tables relating to professional staff. Personnel in multidistrict organizations were not included in the various staff tables due to the impracticality of allocating such staff to individual districts. See Appendix D for a definition of staff included in the various tables.

Financial

This edition contains two new tables of financial data. Table 88 ranks the local taxes received per pupil in Average Daily Membership excluding levies for debt service. Table 89 ranks the local taxes received per pupil in Average Daily Membership including levies for debt service.

The financial tables include expenditures and revenue for area vocational centers and county boards. The area vocational center monies were prorated among the districts on the basis of the number of pupils attending the centers (See Appendix A). The county board monies were prorated on the basis of ADM for the respective districts (See Appendix B).

The pupil count used in the computation of expenditures and revenues per pupil was the Average Daily Membership for the 135-day reporting period. Kindergarten pupils were counted as half-day pupils.

Table 97 reflects the fiscal capacity as updated annually by the South Carolina Tax Commission. The fiscal capacity shown for each district in this table is determined by the South Carolina Tax Commission and is the sum of five different parts or types of fiscal capacity. Part 1 is the adjusted assessed value of owner-occupied residential property, which is 4% of the full market value. Part 2 is the assessed value of all agricultural property as determined through applying a 4% or 6% assessment ratio according to use. Part 3 is the adjusted assessed value of all the other real property such as commercial property, rental homes, vacation homes, etc., with the assessment rate set at 6% of the full market value. Part 4 is the total assessed value of all the locally assessed personal property such as personal automobiles, boats, airplanes, etc.. Part 5 is the total assessed value of all property which is assessed only by the South Carolina Tax Commission. The types of property included in Part 5 are industrial property (real and personal), utility property (power, telephone, railway cars, airlines), merchant furniture and fixtures, etc..

For Part 1 and Part 3, the South Carolina Tax Commission conducts the Sale Appraisal Ratio Study to obtain the full market value. The Sale Appraisal Ratio Study is based on the true sales information in the two most recent years which is furnished by each county assessor during the applicable years. The sum of these five fiscal capacity parts for any given school district divided by the State-derived fiscal capacity produces the index of taxpaying ability, commonly referred to as the "ability index," for a given district (Table 100).

Current operating expenditures reported in this publication (Tables 83, 101, and 102) include the totals for Administration, Instructional Services, Plant Operations and Maintenance, and Auxiliary Services. Expenditures for Capital Outlay, Debt Retirement (Tables 107 and 108), Adult Programs, Community Services, and Pupil Activities are not included in the tables reflecting current operating expenditures. See Appendix C for a complete listing of School District Audit accounts used in the computation of revenues and expenditures.

APPENDIX E

Glossary

Ability Index: A measure of local revenue—producing ability which is based on property values within a school district. It is calculated by dividing the fiscal capacity of the school district by the fiscal capacity of the State. See Fiscal Capacity.

Administrative Staff: Public school staff located within school districts or schools and involved in duties of managing and organizing local education programs. Administrative positions from the Basic Educational Data System (BEDS) are used to identify this category of staff. Administrative positions, for the purpose of this publication, include school principals; assistant principals; vocational center directors; assistant directors; job placement and adult coordinators; district, county, and area superintendents; and assistant superintendents.

Adult Basic Programs: A combination of class instruction equivalent to that found in grades 1–8 and consisting of basic skill areas such as reading, writing, and mathematics. The program serves adults age 18 and over, unless special permission is granted by a local school board. Class instruction is provided in school districts, churches, housing projects, community centers, health care centers, workplaces, and other sites.

Adult High School Programs: A combination of class instruction equivalent to that found in grades 9–12. The program serves adults age 18 and over, unless special permission is granted by a local school board. Adults who are literate and can function in everyday life but are not proficient in skill areas may enroll. This includes adults seeking a high school diploma or equivalent completion through the General Educational Development (GED) examination. Classes are offered in school districts, vocational centers, churches, housing projects, community centers, health care centers, workplaces, and other sites.

Assessed Valuation: The value placed upon property for the purpose of taxation. The process of making the official valuation of property is under the auspices of each county assessor and in cooperation with the State Tax Commission. See Explanatory Notes, page vi, for further information.

Average Daily Attendance: The aggregate number of days for which students are in attendance divided by the number of days in the reporting period. Average Daily Attendance (ADA) is computed for all public schools and districts at the end of 15, 45, and 135 days of school.

Average Daily Membership: The aggregate number of days for which students are in membership divided by the number of days in the reporting period. Average Daily Membership (ADM) is computed for all public schools and districts at the end of 15, 45, and 135 days of school. The latter count is considered official for funding purposes. See Membership.

Average Salary: The sum of individual salaries divided by the number of individuals. For classroom teachers, only individuals teaching full time within a combination of BEDS position codes 03–09 for a contracted period of at least one hundred ninety days within the school year are included. The salary is the total contracted salary for the school year and does not include bonus or incentive pay as provided under the Education Improvement Act.

APPENDIX E—Continued

Bachelor's Degree: An earned basic degree from an approved college education program which allows an individual to become certified to instruct in one or more subject specialities. Regular teachers must possess a bachelor's degree and meet requirements of certification as adopted by the State Board of Education. A teacher with this basic degree is issued a Class III Certificate. An earned bachelor's degree plus eighteen semester hours of graduate credit in a planned program approved by the State Board of Education entitles an individual to receive a Class II Certificate.

Capital Investment: See Capital Outlay.

Capital Outlay: A payment or payments associated with the acquisition of land and buildings, the remodeling and construction of buildings and additions to buildings, initial installation or extension of service systems and other built-in equipment, and improvement to sites. It is usually an expenditure which results in the acquisition of or improvement to assets intended to be permanent or fixed. Such a payment is a capital investment or is said to be capital in nature as contrasted with a current expenditure.

County: One of the basic forty-six territorial units of local governments into which the State of South Carolina is divided. These forty-six governmental units encompass ninety-one geographic or territorial public school districts.

Current Operations: Activities of a school district for a certain school year. The term is normally used to denote monies which are not of a capital nature and are applied during and for the school year under consideration. See Current Operating Revenue. See also Expenditures, Current Operating.

Current Operating Revenue: Funds received from federal, state, and local sources during the annual accounting period, excluding revenues for capital outlay and debt retirement. Proceeds from bond sales and accounting transfers are not considered revenue. See Current Operations.

Debt Retirement: A payment or payments made for the purpose of reducing a debt, excluding current loans, and usually resulting from a capital investment. Such payments are not considered to be associated with the current operations of a school district.

Debt Service: An accounting term having essentially the same meaning as debt retirement.

Doctorate Degree: An earned advanced degree which meets requirements for teacher certification as adopted by the State Board of Education. An individual earning this degree is awarded a Class I—Advanced Certificate.

Dropout: A pupil who leaves school, for any reason except death, before graduation or completion of a program of studies and without transferring to another school. As further clarification, students leaving a public school but not counted as dropouts include (1) students transferring to another school and verified with the receiving school, (2) students enrolling in adult education, (3) students enlisting in the military services, (4) students transferred to a correctional institution, and (5) students whose suspension from school runs through the 180th day of school.

APPENDIX E—Continued

Education Experience: The total years spent employed in education with appropriate certification for the position or positions held. One hundred forty employed days qualifies an individual for one year of education experience. (Years of experience for retirement purposes is computed differently than that for certification credit. The full one hundred ninety days of employment are necessary to qualify for one year of retirement credit.)

Enrollment: A student count encompassing the number of students present for thirty-five days of school. A student is counted in enrollment on the thirty-fifth day that he(she) has been present in school, provided that he(she) has not been counted in the enrollment of any other school in the State. The enrollment count is cumulative for the school year, i.e., a student remains on the enrollment for the original school of entry for any given school year.

Equalized Revenue: The theoretical amount of funds that a school district would receive if local property taxes other than those designated for debt service were distributed to the school districts in direct proportion to the ability indices of the school districts. The amount is obtained by multiplying the ability index by the state total of local property taxes for current operations. See Ability Index.

Expenditures, Administration: Funds spent for activities concerned with establishing and administering policy in connection with operating the school district.

Expenditures, Auxiliary Services: Funds spent for pupil services, instructional staff services, fiscal services, pupil transportation, food services, internal services, and central support services.

Expenditures, Capital Outlay: See Capital Outlay.

Expenditures, Current Operating: Funds spent for all school district activities excluding capital outlay, debt retirement, adult programs, community services, and pupil activities. Alternatively, it is the sum of expenditures for administration, instruction, plant operations and maintenance, and auxiliary services. See Current Operations.

Expenditures, Debt Retirement: See Debt Retirement.

Expenditures, Instruction: Funds spent for activities dealing with the teaching of pupils or the interaction between teachers and pupils regardless of where activities occur (school classroom, home, hospital, etc.); for approved instructional media such as television, radio, telephone and correspondence; for aides, clerks, teaching machines, etc.; or for anything else which assists in the instructional process.

Expenditures, Plant Operations and Maintenance: Funds spent for activities concerned with keeping the physical plant open, comfortable, and safe for use; keeping the grounds, buildings, and equipment safe and in effective working condition and state of repair; and maintaining safety in the vicinity of schools.

Federal Revenue: Funds collected by the Federal Government and distributed to school districts either directly or through intervening agencies. Funds are categorized as current operating funds or capital outlay.

APPENDIX E—Continued

Fiscal Capacity: The assessed value of property located within a school district, adjusted to account for current market value. This measure of school district financial strength is calculated annually by the South Carolina Tax Commission and is the sum of five property tax components. See Explanatory Notes, page vi, for further information.

Full-Time Equivalency: The amount of employed time in a less than full-time position expressed in proportion to that required in a full-time position, with "1.0" representing one full-time position. Full-time equivalency is expressed in tenths.

Households: All related or unrelated persons occupying a housing unit as their usual place of residence. A housing unit is a structure intended for residential use, i.e., a house, a group of rooms, apartment, or a single room occupied as separate living quarters. (People not living in housing units are classified within the 1980 Census as living in group quarters, e.g., institutions, rooming and boarding houses, communes, dormitories, convents, monasteries, etc..)

Levy: See Tax Levy.

Local Revenue: Funds received by the school district from all local sources including local taxes, tuition, transportation fees, earnings on investments, food sales, pupil activities, rentals, donations, and any miscellaneous local source. See Local Taxes. See also Appendix C.

Local Taxes: The part of revenue that a school district receives which is a result of local taxation. Included in this category are taxes levied within the school district boundaries such as levies for current operations, levies for debt service, delinquent taxes, levies for permits, licenses and other taxes. Also included are taxes received by the school district from intermediate or other local governmental units. Such taxes include county equalization tax, revenue in lieu of taxes, and money which may not have been earmarked for school purposes. See Tax Revenue. Also see Local Revenue and Appendix C.

Lunch, Free: School lunches provided to public school students without payment of a lunch fee. Student eligibility for free lunch is based on the completion of an application by the parent or guardian and the determination that family size and income as declared on the application meet criteria for free lunch.

Lunch, Reduced—Price: School lunches provided to public school students at a less than full-price fee. Student eligibility for reduced-price lunch is based on the completion of an application by the parent or guardian and the determination that family size and income as declared on the application meet criteria for reduced-price lunch.

Master's Degree: An earned advanced degree which meets requirements for teacher certification as adopted by the State Board of Education. A teacher earning this degree is awarded a Class I Certificate. An earned master's degree plus thirty semester hours of graduate credit in a planned program approved by the State Board of Education entitles a teacher to receive a Class I—Specialist Certificate.

Median Age: The age value in an ordered set of values below and above which are equal numbers of values. The median age listed in the 1980 Census was computed using the age of persons in completed years as of April 1, 1980.

APPENDIX E—Continued

Median Household Income: The amount which divides the household income distribution into two equal groups, one having incomes above the median and the other having incomes below the median. For households, the median income is based on the distribution of the total number of household units including those with no income.

Median School Years Completed: The number of years of school completed by the typical person in the population under consideration. Half the population have less schooling, and half have more schooling.

Membership: The number of pupils present plus the number of pupils absent. The Department of Education collects aggregate days present and absent for all students at the end of 15, 45, and 135 days of school. The aggregate days present and absent divided by the number of days for the appropriate school period equals Average Daily Membership for a given period.

Membership, Weighted: The total obtained by adding the weighted membership for each classification of pupils as specified by the Education Finance Act. The weighted membership for each classification is found by multiplying the Average Daily Membership for the 135-day period by the weighting factor for that classification. The weighting factors are:

CLASSIFICATION	WEIGHTING FACTOR
(1) Kindergarten Pupils	1.30
(2) Primary Pupils (Grades 1-3)	1.24
(3) Elementary Pupils (Grades 4-8)	1.00
(4) High School Pupils (Grades 9-12)	1.25
(5A) Educable Mentally Handicapped Pupils	1.74
(5B) Learning Disabled Pupils	1.74
(6A) Trainable Mentally Handicapped Pupils	2.04
(6B) Emotionally Handicapped Pupils	2.04
(6C) Orthopedically Handicapped Pupils	2.04
(7A) Visually Handicapped Pupils	2.57
(7B) Hearing Handicapped Pupils	2.57
(8) Speech Handicapped Pupils	1.90
(9) Homebound Pupils	2.10
(10) Pre-vocational Pupils	1.20
(11) Vocational Pupils	1.29

The above weighting factors are used to provide for relative cost differences among programs for different students. Kindergarten pupils are counted as half-day pupils for an effective weighting of .65.

Mills: Units of property taxation. A mill is one tenth of one percent. See Tax Levy.

Net Taxable Sales: Gross sales less allowances for nontaxable items. Businesses currently report sales by the county in which the product was retailed.

APPENDIX E—Continued

Nonpublic (Private) School: A sectarian, ecumenical, or secular school operating within South Carolina and offering, generally for a tuition charge, elementary— and secondary— level instruction to resident or day students of legal school age. Elementary— or secondary—level instruction applies to grades kindergarten through twelve for the purposes of this publication. (Attorney General's Opinion No. 2513, page 200, defines a private school as one established by any agency other than the State or its subdivisions, primarily supported by other than public funds, and operated by officials neither publicly elected nor appointed.)

Nonwhite Count: A sum of persons who report that they belong or identify with Black racial groups of Africa, Hispanic groups, Asian/American (Pacific Islander) origins, or American Indian (Alaskan Native) origins.

Per Capita: Per person.

Per Capita Income: The mean (average) income per person. The figure is calculated by adding the total personal incomes of every man, woman, and child in a particular group and dividing by the number of persons in that group, including those with no income. Persons without income (children, for example) tend to lower the per capita income. See Personal Income.

Per Pupil: Refers to division by the pupil count. The financial tables in this document which refer to revenue, expenditures, assessed valuation, or wealth per pupil use the Average Daily Membership count at the end of 135 days of school. Unless otherwise specified, the unweighted count with all kindergarten pupils counted as half—day pupils is used to rank the school districts according to per pupil values.

Personal Income: The total income annually received by an individual. For the 1980 Census, personal income includes income received in calendar year 1979. It represents income from all sources before deductions for taxes including wages and salary, net income from self—employment, net rental income, interest, dividends, royalties, social security, railroad retirement, public assistance, welfare and all other income. Income does not include money received from sale of property or value of income "in kind" from sources such as food stamps, public housing subsidies, or medical care. Also excluded from income are money borrowed, withdrawal of bank deposits, tax refunds, exchange of money between relatives, gifts, lump—sum inheritances, insurance payments and other types of lump—sum receipts.

Poverty Level: A classification derived from the 1980 Census collection and based on income of families and unrelated individuals in 1979 using a poverty index which provides a range of income thresholds varying by size of family, number of children, and age of the family householder or unrelated individual. The family income threshold ranged from \$3,479 for one person over age 64 to \$14,812 for nine or more persons.

Professional Staff: For the purpose of this publication, all persons for which professional staff forms are completed during the annual collection of the Basic Educational Data System (BEDS) constitute professional staff. The types of staff required to complete a staff form are listed in Appendix D.

Public School: An elementary— or secondary—level school operated by publicly elected or appointed school officials in which the program and activities are under the control of these officials and supported by public funds.

APPENDIX E—Continued

Rural Population: The population not classified as urban. See Urban Population.

Salary: The total amount regularly paid or stipulated to be paid to an individual, before deductions, for personal services rendered while on the payroll of a school district. See Average Salary.

School District: The basic administrative unit in the organization of public schools within South Carolina. Currently, 91 geographic public school districts operate under the jurisdiction of local school boards and work through the school district superintendent or chief administrator.

Six--Year Certificate: An earned master's degree plus thirty semester hours of graduate credit in a planned program approved by the State Board of Education. A teacher earning this certificate is awarded a Class I--Specialist Certificate. An applicant must possess a minimum of sixty graduate semester hours and must meet requirements for an initial area of certification as adopted by the State Board of Education.

State Revenue: Funds collected by the State and distributed to school districts. Funds that are dispersed directly by the State, such as those for operating the school bus system, and the portion of fringe benefits paid by the State are not included as revenue at the school district level.

Supervisory Staff: For the purpose of this publication, persons occupying the professional positions of director, supervisor, consultant, and coordinator of special instructional areas and located within the county or school district office constitute supervisory staff. The specific position types are listed in Appendix D, "County/District Office Personnel Only."

Tax Base: The value to which the tax rate is applied to determine the tax due. For property tax, the base is the assessed valuation; for income tax, the base is the taxable income.

Tax Effort: The ratio calculated by dividing tax revenue by equalized revenue for a school district. See Tax Revenue and Equalized Revenue.

Tax Levy: The tax rate; the ratio of tax to the tax base. For property tax, the rate is in mills and is applied to the assessed valuation to determine the tax. See Mills.

Tax Revenue: Funds received by a school district through taxation of local property. Tables in this document distinguish between taxes received for current operations and taxes received for debt retirement. See Local Taxes. See also Appendix C.

Taxable Income: The aggregate amount of income on which South Carolina personal income tax liability is based. Generally, it is the last figure determined by an individual prior to using the tax tables.

APPENDIX E—Continued

Teacher Turnover: The ratio of teacher attrition to the base-year teacher count expressed as a percent. Only full-time teachers who possessed valid credentials and were employed more than one hundred forty days during a school year were counted for the year. The teacher turnover rate is the smaller of the percent of teachers who were in the first-year count, but not in the second-year count, and the percent of teachers who were in the second-year count, but not in the first-year count. Use of the smaller percentage (terminating versus newly-employed) largely compensates for effects due to expansion or contraction of programs and/or the student population base within a school district.

Urban Population: As defined for the 1980 Census, the urban population comprises all persons living in urbanized areas and in places of 2,500 or more inhabitants outside urbanized areas. More specifically, the urban population consists of all persons living in (1) places of 2,500 or more inhabitants incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England States, New York, and Wisconsin), but excluding those persons living in the rural portions of extended cities; (2) census designated places of 2,500 or more inhabitants; and (3) other territory, incorporated or unincorporated, included in urbanized areas.

Wealth Per Pupil: The fiscal capacity of a school district divided by the membership. See Fiscal Capacity and Per Pupil.

White Count: A sum of persons who report that they belong or identify with people having origins from any of the original people of Europe, North Africa, or the Middle East.
